LOT 694

A platinum and diamond ring, collet set with the principal cushion cut diamond between diamond four stone shoulders, detailed 'Platinum', weight 2.5g, ring size approx L1/2.

Estimate: £300 - £400

Condition Report

The top of the ring when viewed from various angles looks somewhat tired having had various work done over the years. One shoulder diamond is replaced, which is too large when compared to the rest. The principal diamond has one principal black piqué inclusion towards the edge, otherwise looks reasonably clear and would be of improved appearance when cleaned. Ring is currently very dirty.
