LOT 582

An 18ct gold, emerald and diamond ring, mounted with three circular cut emeralds and ten circular cut diamonds, London 1996, weight 2g, ring size approx K1/2.

Estimate: £100 - £150

Condition Report

Emeralds have medium to pale colour saturation, each with an obvious window through the table. They have typical inclusions, some of which are surface reaching.

Diamonds are generally bright white stones, with one or two inclusions noticeable under 10x magnification. Hallmark is crisp.

Some wear to the sides of the claws where they have rubbed against other rings in the past.

Typical light surface scratching to the setting/shank.

Would benefit from a clean.
