LOT 634

A Bohemian garnet oval hinged bangle, second half of the 19th century, the front with a flowerhead shaped motif between pierced foliate shoulders, mounted with variously cut garnets, on a snap clasp, inside width 5.3cm, together with another Bohemian garnet oval hinged bangle, inside width 5.5cm.

Estimate: £80 - £120

Condition Report

Larger garnet bangle - front section slightly loose. Some variation of height to the garnets. One garnet is lacking next to the hinge. One side of bangle has been bent inwards. Generally light wear/scratching to the setting. A few nibbles and scratching to the garnets in places.

Other bangle - some variation of size to the garnets. Slightly misshaped overall. Some general wear/nibbles to the garnets.

The bangles appear to have a gilt flashing so it makes it difficult to tell what metal is underneath.
