

British and Continental Ceramics / Wednesday, 1st June 2022 / Lot 1567

LOT 1567

An Hispano Moresque lustre charger, late 19th century, the centre painted with the coat of arms of Kingdom of Sicily within a lobed panel border, diameter 46cm.

Estimate: £40 - £60

Condition Report

There is a manufacturers fault/chip to the underside rim edge approx 3cm long by 1.5cm wide. The raised ribbing to the upper surface decoration has a number of minor nicks only really noticeable on close inspection, with some very minor fritting to the rim edge. Otherwise in good condition overall with no cracks, chips or restoration.

I am afraid we have been unable to identify the marks to the reverse of the dish.
