### Condition Report

106 - Some crinkling and buckling to the paper on the left and right edges. General undulations to paper and some old light creases as if previously rolled. Repaired 5cm tear to the top edge near the tail, touches of gouache now appear quite a bright white along this tear. Some spots of foxing and general age-toning to paper. Mount and backing are not archival. This work has not been examined out of the frame. Frame with some minor scuffs and scratches. Provenance: Consigned from the estate of a late picture collector.
