LOT 613

A two colour gold and diamond ring, mounted with the principal princess cut diamond in a square shaped setting within a surround of circular cut diamonds, between circular cut diamond set shoulders, otherwise with engraved decoration, detailed '18K', weight 7.6g, ring size approx K.

Estimate: £350 - £450

Condition Report

The principal diamond under x10 magnification has one or two pinpoint inclusions.

The other diamonds appear to be fairly bright white stones with a few inclusions noticeable under x10 magnification.

The ring has been resized in the past which has resulted in a slightly untidy join to the back of the shank, the engraved decoration no longer lines up exactly in this area as a result. Otherwise the ring is generally in good condition.
