## Condition Report

80 - Light age-toning to paper. Some light browning around the edge of the mount. Minor fading. Considerable detrius trapped beneath the glass, however this does not appear to have caused any staining to the work itself. No obvious repairs or tears. Mount and backing are not archival. Frame with damage along the bottom edge and coming away at the joins. This work has not been examined out of the frame. Provenance: Consigned from a local deceased estate.
