LOT 533

A gold, diamond, emerald and cultured pearl cluster ring, mounted with the cultured pearl within a surround of alternating cushion cut diamonds and emeralds, unmarked, weight 4g, ring size approx P.

Estimate: £250 - £350

Condition Report

The cultured pearl has strong but irregular surface lustre.

The diamonds are in a variety of cuts, some are drawing colour and have surface reaching inclusions.

The emeralds are generally fairly heavily included stones. The emeralds are of medium colour saturation. One emerald has been re-glued into position. Some of the emeralds have surface wear to the facet edges.

There is an acid test stain within the band. The ring has been resized in the past, with a section let in at the back of the shank.

Suggested age - mid-20th century.
