### LOT 653

A Georgian gold mounted micromosaic brooch of canted corner rectangular form in the Neoclassical Revival taste, designed as a two handled amphora vase, weight 6g, width 1.9cm.

Estimate: £70 - £100

---

### Condition Report

The micromosaic is in fair condition overall. Under x10 magnification the top section of the vase appears to have had some restoration, which is now beginning to flake off. There are one or two small pieces of mosaic missing in this area underneath this restoration.

The piece possibly started life as a clasp, having had some filling in/repair work to the sides.

The brooch fitting is a later addition.
