Condition Report

The ring is rather dirty at present. Will benefit from a clean.

The diamonds look to be drawing colour to yellow when viewed side-on. Face-up they appear bright and white. Under x10 magnification the diamonds appear to have one or two tiny inclusions. The centre stone with a small dark inclusion under the table.

Some slight wear to the claws. Very minor wear to the sides of the setting. Resized in the past. Minor thinning to the shank overall.

Measurements are approximate and limited by the setting:

Centre stone - 0.40ct
