### LOT 663

A gold, sapphire and diamond ring in a triple cluster design, mounted with three circular cut sapphires within a surround of circular cut diamonds, detailed '18ct', weight 3.6g, ring size approx N1/2.

Estimate: £160 - £190

---

### Condition Report

Sapphires are of dark colour saturation. Side sapphires have a slightly green tint to them. General heavy abrasion to the facet edges. Some scratching to the tables.

Diamonds look to be drawing colour to yellow, however the ring is rather dirty and this may improve with a clean.

One or two inclusions evident under x10 magnification.

Typical light scratching to the shank.

Measurements approximate and limited by setting:

Central sapphire - 5mm x 5mm

Side sapphires - 3mm x 3mm

Diamonds just over 1mm in diameter each
