LOT 695

A gold and platinum diamond five stone ring, collet set with a row of cushion cut diamonds graduating in size to the centre stone, detailed '18ct Plat', weight 1.8g, ring size approx Q, with case.

Estimate: £120 - £160

Condition Report

Wear to the setting. The centre stone and one outer stone are lacking a portion of their collet setting. Stones are drawing colour to grey and have one or two inclusions; currently the ring is rather dirty and this may improve with a clean.

Some thinning and misshaping to the shank.

Measurements approximate and limited by setting.

Centre stone - 3.5mm x 2.5mm
