

Jewellery / Wednesday, 8th June 2022 / Lot 705

LOT 705

A diamond five stone ring, claw set with a row of cushion cut diamonds graduating in size to the centre stone, unmarked, weight 2.7g, ring size approx O, with case.

Estimate: £150 - £250

Condition Report

Currently the ring is extremely dirty. The diamonds are rather subdued as a result and are appearing to draw colour.

They look to have one or two inclusions under x10 magnification. One side diamond has a chip to the girdle. Possibly the ring has had a replacement shank in the past. The current shank has some thinning.

Measurements are approximate and limited by setting:

Centre stone - 5mm x 4mm

Side stones - 4mm x 3mm

Outer stones - 1.5mm x 1.5mm
