### LOT 709

A gold and platinum ring, claw set with an oval cut sapphire between two circular cut diamonds, detailed '18ct Plat', weight 2.9g, ring size approx M1/2, with case.

Estimate: £140 - £180

---

### Condition Report

The sapphire is of dark colour saturation. General abrasion to facet edges and scratching to the table. Diamonds slightly draw colour, with one or two inclusions noticeable under x10 magnification. Typical light scratching to the shank. The top of one claw to one diamond has broken off and needs re-tipping. The ring is dirty and would benefit from a clean.

Measurements are approximate and limited by setting:

sapphire - 6mm x 5mm

diamonds - 0.15ct approx each
