LOT 733

A gold, platinum and diamond five stone ring, claw set with a row of circular cut diamonds graduating in size to the centre stone, detailed '18ct Pt', weight 2.6g, ring size approx Q1/2.

Estimate: £220 - £260

Condition Report

One side stone appears to have a yellow tint, possibly a replacement. One pair of claws to this diamond have been re-tipped in the past. The other stones in general appear to be fairly white stones.

The diamonds generally have a few black inclusions under the table at x10 magnification, some of which can be seen with the unaided eye.

A couple of the claws are showing signs of wear.

Some wear to the side of the setting. Typical light scratching to the shank.

Measurements approximate and limited by setting:

Centre stone - 0.30ct

Side stones - 0.15ct

Outer stones 0.10ct
