LOT 566

A 9ct gold circular pendant locket, undecorated, Birmingham 1918, weight 11.7g excluding interior, length 4.5cm.

Estimate: £150 - £250

Condition Report

Some light typical scratching to the front and back. The locket opens easily, the hinge is in good working order. There is some slight wear to the edges of the locket, which seems to be revealing a rosier colour of gold underneath. A small but long split to the top edge under the suspension loop.
