LOT 590

A platinum and diamond three stone ring, claw set with a row of circular cut diamonds, Sheffield 2017, weight 5.6g, total diamond weight approx 2.30ct, ring size approx P.

Estimate: £3,000 - £3,500

Condition Report

The ring mount is generally in good condition. We are unfortunately unable to give a professional diamond grading for this ring.

Centre diamond - has a surface reaching inclusion to the edge of the table, noticeable without magnification. It also has a small chip to the girdle/upper facet edge and a small indented blemish running across a bezel facet. The stone slightly draws colour to yellow.

Side stone 1 - the stone has a feather and a surface reaching inclusion beside one set of claws, noticeable without magnification. The stone slightly draws colour to yellow.

Side stone 2 - has one or two inclusions, not really noticeable face-up. A whiter stone than the other diamonds. All three stones are old European cuts rather than modern round brilliants and are overall an attractive show.
