LOT 507

A gold and bloodstone intaglio ring, the cut cornered bloodstone engraved with a lion crest, with decorated shoulders, unmarked, weight 8.9g, ring size approx G.

Estimate: £200 - £300

Condition Report

There are two sizing hoops soldered inside the band of the ring, these may obscure the original hallmarks. The ring is otherwise unmarked. Although the ring is unmarked, it looks to be high grade gold, possibly 18ct. It is not of hollow construction.

There is some wear and old scratches to the bloodstone crest. There is some wear and loss of definition to the engraved decoration.

Suggested age - last quarter of the 19th century.
