LOT 572

A 9ct gold, blue topaz and diamond oval cluster ring, claw set with the oval cut blue topaz within a surround of circular cut diamonds, detailed '.20', Birmingham 1994, weight 3.4g, ring size approx Q1/2.

Estimate: £70 - £100

Condition Report

The topaz has some minor abrasion to facet edges and one or two nicks to facet edges. There are one or two tiny scratches to facets too. The topaz is of medium to pale colour saturation with some slight windowing to the centre.

The diamonds are slightly subdued currently largely because the ring is dirty and needs a clean. They appear to draw colour slightly to grey.

Typical light scratching to the shank, very minor thinning to the back of the shank.
