LOT 636

A gold and opal cluster ring, claw set with the principal oval opal within a surround of smaller oval opals, unmarked, weight 4.4g, ring size approx M.

Estimate: £400 - £500

Condition Report

Centre opal approx. 16.3mm x 10.2mm x 3.5mm

Small scratch to opal on one side, it also has a short crack on one side running from the base of the cabochon towards the top, it is visible without magnification. The play-of-colour of the stone is slightly subdued, largely blue/green.

Three or four claws securing the central opal needs retipping.

The surrounding smaller opals have a much stronger play-of-colour, with some variation of size. Minor scratching/rubbing to surrounding ovals.

Otherwise with typical light scratching to shank/setting.
