Condition Report

The watch is currently running and winds and adjusts smoothly, but please be aware we give no guarantees to working order or reliability of any clock or watch.

The case in generally good condition with typical light surface scratches and wear.

The mother-of-pearl dial in good order with only minor wear to the decoration. There are a couple of very minor faint lines to bottom edge, only visible under x10 magnification, but they are pretty insignificant and they look like natural shrinkage hairlines rather than actual cracks.
