LOT 510

A platinum, yellow sapphire and diamond cluster ring, collet set with the cushion cut yellow sapphire within a surround of circular cut diamonds, detailed 'Plat', weight 4.7g, sapphire weight approx 1.20ct, total diamond weight approx 0.45ct, ring size approx N.

Estimate: £700 - £900

Condition Report

In generally good condition overall.

The diamonds have a few inclusions, some are surface reaching, face-up appearance they look to be bright white stones.

The yellow sapphire has the tiniest pit/bruise to the table, only really noticeable under x10 magnification. There are a couple of inclusions and through the pavilion angular zoning is visible under magnification. We cannot however guarantee that the stone has not been treated to enhance colour and clarity.
