LOT 571

An 18ct gold and diamond cluster ring in a circular design, claw set with circular cut diamonds, fitted with a sizing band, Birmingham 1988, weight 6.3g, ring size approx M1/2.

Estimate: £300 - £400

Condition Report

Diamonds look to be fairly white stones, one or two looking a little yellow face-up, however the ring is dirty and the appearance may improve. The stones generally have a few inclusions, one or two are surface reaching.

Light scratching to the shank/setting.

Diamonds possibly approx. .04 to .05ct each
