## Condition Report

230 - Age toning and light browning throughout. Heavy spotting throughout too. The toning has caused some 'ghosting' around the white bodycolour which is now much more pronounced. Some of the spots of foxing look like they have been attempted to be treated with slight bleaching around them. Colour's a little muted so probably faded as well. Gilt frame with some rubbing and scuffing particularly to the bottom left and top left corners. Unexamined out of the frame.
