LOT 124

W. & A.K. Johnston, after Matthew Forster Heddle - 'Geological and Mineralogical Map of Sutherland...', engraving in 28 sections with near period hand-colouring, folding and backed onto linen, published for the Mineralogical Society circa 1881, overall 85.5cm x 100.5m, within cloth covered boards with gilt title.

Estimate: £50 - £80

Condition Report

124 - Some light surface dirt and dust. Light foxing, mostly to the top left sections. Minor age toning to paper commensurate with age. Minor soiling. Colours fresh and good. Overall in good condition. Minor bumping to cloth, illegible ink ownership name to reverse of one sheet.
