## Condition Report

Marriage plate - broken in half along the diameter of the plate, from 5 to 11 o'clock approximately, with another section approx 3cm deep broken alongside this break between 4 and 5 o'clock. There would appear to be other smaller breaks/cracks along the ends of the break lines - all has been professionally restored with minimal repainting. The restoration is obviously old and has started to crack in places on the rim underside.  
Verse plate - typical fritted chips to rim edge and light surface surface wear.
