### Condition Report

There is a sizeable chip to the base tip of the glass vase, no doubt where it has been knocked at some stage placing it into its stand. Otherwise the glass is in good condition overall with no cracks, chips or restoration. The enamels and gilding are good, still nice, bright and vibrant.

The glass trumpet would hold water, and seems to have in the past as some water line/limescale marks are present.

The stand needs a clean and is quite rusty.
