## Condition Report

Weighs 1905g.

In good condition overall with no significant cracks or repairs, there is a minor concave blemish to the interior side.

The surface overall displays considerable wear to the rim edges and feet, and significant overall light surface scratches, a few around the widest part of the body being deeper and more noticeable revealing the brassy gilt colour beneath the brown patination.

There is a minor surface blemish to the widest point of the body exterior - probably a manufacturing issue.
