LOT 2042

A late George III Neoclassical walnut framed elbow chair with a beaded frame and caned seat, height 92cm, width 58cm.

Estimate: £50 - £80

Condition Report

2042. There is a small crack just above the left side back joint. The left arm is slightly loose and wobbly. There are a few minor surface cracks to the back and some overall surface wear and scuffs. There is a small section of moulding missing on front left foot and some slight loss to one of the rear feet. Possibly formerly gilded, as there is a lack of Georgian surface patina.
