### Condition Report

1150. The clock is a nice original clock with typical wear and damage. There is an enlarged hole to bezel at the locking point. Some wear to bezel hinge. Dial is generally good but a bit dirty.

Case is generally speaking ok, but there are some splits/cracking across the top and apron. There is also some minor chips and loss to gesso, otherwise no significant damage or loss. Gilding is fairly good considering the age of the clock, but would certainly benefit from a clean. Later brass suspension strap to back of case. Rear door is not totally secure.

Movement is original and appears to be working, but please be aware we give no guarantees to working order or reliability of any clock or watch.
