### Condition Report

2015. Replacement lockplate to left drawer, lacking lockplate to central drawer. Top is bowed downwards in the centre with slight gapping between the timbers on the top. 12cm piece missing from top at rear. Replaced sections of moulding to the sides and later replaced rear legs. Small section of crossbanding replaced to the drawer. Drawers are quite loose in the frame, but still function well. Handles and escutcheons are not original. General age related wear throughout. Otherwise, nice colour.
