LOT 2009

An early 18th century walnut chest-on-stand, the oak-lined drawers with later brass handles, height 158cm, width 102cm, depth 60cm (some alterations).

Estimate: £700 - £1,000

Condition Report

2009. Top two small drawers lacking internal locks. Separation cracks down each side of chest. Small losses to moulding and veneer, especially on the base. Looks to have been professionally resorted in the past. Generally in good overall condition, but with age related wear and minor faults.

The drawer section of the base appears to be original with the top half, however the legs and stretchers appear to be later replaced, probably early 20th century.
