LOT 686

A 9ct gold, diamond and varicoloured treated diamond ring, mounted with five rows of circular cut diamonds alternating with varicoloured baguette diamonds, Birmingham 2012, ring size approx N, and a 9ct gold, treated blue topaz and colourless gem set ring, total weight 8.7g.

Estimate: £80 - £120

Condition Report

Diamond treated ring - the diamonds have been treated to change their colour, we would suggest by means of coating. There are one or two chips to several of the baguette cut diamonds.

Topaz ring - generally in good condition. One or two tiny nicks to the topaz.

Overall typical light scratching to the rings.
