### Condition Report

Under a x10 loupe, it is noticeable that one pearl is beginning to peel, the emeralds are abraded, one chipped. All rubies with some abrasion, one side ruby is chipped.

The ring has been resized in the past, some attempt has been made to decorate the shank in this area to match the engraving, this has been poorly done.

Chipping to the edges of the glazed compartment, possible water damage to the interior of the compartment.
