Condition Report

2614. There does not appear to be any cracks to the front. There is a thin surface line underneath the right foot of the bridge, but it does not look like a crack. There are a few cracks to the sides and some overall surface scuffs and marks. Some shiny surface residue that looks like glue underneath the feet of the bridge, which seems odd and worth mentioning. Later fitted endpin.
Length of neck 28.3cm.
