Condition Report

All carat weights and gradings are for guidance only, they are estimations and limited by the jewellery settings.

The pink sapphire has a surface reaching inclusion to one corner, otherwise it appears to be a fairly inclusion free stone. The pink sapphire is of pale to medium colour saturation. Sapphire weight approx. 0.50-0.60ct.

The diamonds have some slight variation of colour, approx. J/K, clarity approx SI. Total diamond weight approx. 0.50ct.

The ring is generally in good condition.
