LOT 465

An 18th century silver oval bread basket with pierced swing handle above pierced sides, on a similarly decorated oval foot, unmarked, weight 662.8g, length 35cm (faults).

Estimate: £250 - £350

Condition Report

465. The basket is a bit tired, damaged and worn. There are a number of small areas of loss to the pierced borders, along with misshaping and splits to piercing and rim. Also appears that each end of the basket rim has been trimmed to deal with broken sections. Basket interior is very badly worn with engraved monogram almost entirely worn away. Handle is generally quite good.
