

Jewellery / Wed, 2nd November 2022 / Lot 571

LOT 571

A Victorian gold, foil backed citrine and half-pearl oval cluster ring, the foil backed citrine mounted within a surround of half-pearls between scrolled shoulders, unmarked, ring size approx R (loaded, two half-pearls lacking).

Estimate: £100 - £150

Condition Report

Two pearls lacking, three or four others are beginning to peel.

There has been a repair to the back of the shank, it is also dented in this area.

There is a split to one shoulder, running through the decoration.

The ring is loaded and not solid gold, total weight 6.3g.

We feel the ring is possibly early Victorian, the style would suggest this.
