LOT 2192

A 19th century mahogany breakfront library bookcase cabinet, the inlaid pediment above lancet glazed doors and panelled cupboard doors, height 238cm, width 197cm, depth 52cm (alterations).

Estimate: £500 - £800

Condition Report

2192. This bookcase cabinet is essentially what would have been the central section to a once wider piece of furniture. Both side panels are later and the position of the door hinges on the lower section have been altered from the original. There are also small losses to the veneer and moulding to the cornice and top right corner, and in several other places.
