LOT 670

A 9ct gold oval hinged bangle in a bamboo design, on a snap clasp, Chester 1959, weight 11.3g, inside width 6cm.

Estimate: £150 - £200

Condition Report

The clasp is in good working order and clicks nicely into place.

There is some slight movement to the hinge, which is resulting in one side of the bangle being slightly wobbly. It might be advisable to reinstate a safety chain, as there are hoops present for such this purpose.

There are no obvious dents, only typical light scratching to the surface.
