

Jewellery / Wed, 30th November 2022 / Lot 673

LOT 673

An 18ct gold, emerald and cultured pearl ring, mounted to the centre with a cabochon emerald and three cultured pearls in an abstract design, the shank hinged to open at the top, London 1972 by John Alistair Donald, weight 8.7g, ring size approx M.

Estimate: £180 - £220

Condition Report

The hinged shank is currently non-operational. The hinge itself looks to have been slightly bent out of shape which is preventing it from opening.

The emerald have fractured in the past and is very obviously filled/glued together across the middle of the stone.
