

Clocks and Barometers / Thu, 8th December 2022 / Lot 1211

LOT 1211

A George III oak longcase clock with thirty hour movement striking on a bell, the 12-inch square dial with silvered chapter ring and centre inscribed 'John Johnson Halesworth', cornered with cast and pierced gilt foliate spandrels, the hood with glazed door above a rectangular trunk door, plain base and stepped plinth base, height 201cm, with pendulum and weight (alterations). Note: John Johnson is a recorded clockmaker working 'near the market place' in Halesworth, Suffolk, circa 1770s until his death in 1789.

Estimate: £100 - £150

Condition Report

1211. The clock is generally good order with no significant damages. It is likely that the movement and case are a marriage. Case has typical minor nicks and wear and plinth has been built up at some stage. Some wear/surface scratches to silvered dial. Movement looks in good order, but may require a service to return to full working order. Pendulum and weight are present.
