LOT 572

An 18ct two colour gold wind band ring in an abstract textured design, London 1973, weight 8.2g, ring size approx J.

Estimate: £200 - £300

Condition Report

The shape of the ring is ever so slightly oval.

The ring has generally some scratching to the exterior and some minor areas where the textured decoration has been worn down, but this is fairly minimal however and difficult to spot.
