LOT 124

Edward Stanford (publisher) - 'Geological Survey of England and Wales, Index Map Sheet 12' (Environs of London), engraving in 28 sections with hand-colouring, folding and backed onto linen, published at the Geological Survey Office, London 1895, overall 67cm x 89cm, within a cloth covered cardboard case with original paper label.

Estimate: £40 - £60

Condition Report

124. Overall in good condition. Some minor age toning and spotting but mostly to linen rather than sections. No obvious signs of fading. Slipcase beginning to fray at edges and faded to both side panels. Label with light spotting and soiling.
