LOT 2026

A Victorian and later mahogany window seat, height 55cm, width 122cm, depth 30cm (alterations).

Estimate: £80 - £120

Condition Report

2026. It is our feeling that this seat has been made from Victorian wood, i.e. chair legs and table top, and made-up at a later date. There is overall surface wear and marks. Both of the handles have been applied to the top at slightly the wrong angle.

The height measurement given is to the top of the handles. The seat height is 45cm.
