LOT 1280

A late Victorian brass skeleton timepiece with eight day single chain fusee movement, the silvered skeletonized chapter ring with black Roman hour numerals, the scroll frame on turned feet and stepped white marble base with bun feet, height 33cm, with pendulum and a glass dome.

Estimate: £300 - £400

Condition Report

1280 - Generally good condition. Typical light surface scratches and wear to brass. Silvered chapter ring is worn.

Glass dome in good condition with only very minor chips around the bottom edge. Marble base in good condition. Re-glued feet.

The movement winds smoothly and runs for approximately a couple of minutes before stopping, will probably require a service/clean to return to full working order.
