LOT 2004

An early George III mahogany circular wine table, the moulded edge top above a turned knop stem and tripod base, height 64cm, diameter 45cm (some alterations). Provenance: the property of Michael Godfrey.

Estimate: £100 - £200

Condition Report

2004. The top is old but probably not the original, as there is a later turned section added to the top of the stem and a circular plate added to the underside of the top. Otherwise condition is ok with a few thin hairline cracks to edge of top and a small chip to one foot.
