LOT 628

A diamond cluster stickpin, mounted with an old cut pear shaped diamond within a surround of variously cut diamonds, unmarked, length of cluster 1.1cm, with a base metal security clip and case.

Estimate: £200 - £250

Condition Report

The old cut pear shaped diamond slightly draws colour, has a surface reaching inclusion at the top of the stone, otherwise looks to be fairly clear.

The surrounding diamonds are well matched for colour, slight variation of clarity and cut.

Width of cluster 0.9cm.

Carat weight of central pear shaped diamond estimated at 0.30ct, and the surrounding diamonds in the region of 0.33ct. Therefore estimated total carat weight of stones approx 0.63ct.
