LOT 502

A Victorian 18ct gold uniform curb link Albert watch chain, London 1860, fitted with two 18ct gold swivels, length 44.5cm, an 18ct gold T-bar and an 18ct gold pendant fob seal, total weight 60.1g, with an associated case.

Estimate: £1,500 - £1,800

Condition Report

Some minor wear between the links, but no major thinning.

Each link is marked 18 with a crown. Both the T-bar and one link is marked with the maker 'HM'.

The swivel at the far end is not working correctly, closing loosely and cannot be relied upon. The other swivel connecting the T-bar is working and in generally good order.

The swivels are a subtly different colour gold to the rest of the chain, so it is uncertain whether they are the originals, both are marked 18 with a crown. The seal is of a similar colour gold.

The seal is in generally good order, only typical light surface scratching/wear.
