LOT 801

A gold and lapis lazuli oval signet ring, crest and monogram engraved, unmarked, weight 10.3g (misshaped).

Estimate: £180 - £220

Condition Report

The lapis lazuli is carved with a stag/deer above a crown, which is above two initials, possibly CU or CV, but the second letter is badly obscured due to chipping to the surface of the stone.

There is some general scratching to the stone.

The shank is misshaped and the shoulders/sides are heavily worn with only traces of the decoration left, with general typical surface scratching to the metal.

The ring is gold but unmarked, likely a higher grade but untested.
